

STEFAN VENTER

PROFESSIONAL SUMMARY

Driven and analytical final-year BSc IT student with experience in system design, database development, programming, web design, and problem solving. My background in a retail healthcare environment has equipped me with strong problem-solving, communication, and data precision skills, which I am keen to integrate with my IT studies. Seeking a part-time IT internship or junior role to apply academic knowledge to hands-on projects, contribute to real-world solutions, and grow my IT expertise.
